

**THE SITUATION
GROWS WORSE****A STATE OF DESTITUTION
AT SAULT STE. MARIE.**

Employees of the Consolidated Lake Superior Company in Need—No Money or Credit and Unable to Cash Pay Checks.

Sault Ste. Marie, Sept. 24.—The situation in the Canadian Soo, which is suffering most from the shutdown of the Consolidated Lake Superior company's plants, is to day the worst since the closing of the works. Added to the general state of destitution of the discharged employees, comes the announcement to day that the street car men will strike next Monday unless they receive their pay in full. The men on the street cars in the American Soo are also growing as are the men on the ferries between the two Soos. The weather is cold and raw and it is feared that unless there is some relief soon there will be much suffering. The discharged men have no money and it is almost impossible to sell their pay checks at a big discount. They cannot obtain credit at stores.

Trouble continues to pile up for the Consolidated Lake Superior company in the Canadian Soo. The latest threatened is a strike of the street railway employees, who have given notice they will go out on Monday unless they receive the wages due them. Lawyers are kept busy issuing writs against the company and unpaid employees are growing uneasy.

Sault Ste. Marie, Mich., Sept. 24.—The steamer Minnie M. arrived from the Michipicoten mining region to day with 175 men from the Helen iron mine, which is owned by the Consolidated Lake Superior company. Most of the men have been employed from six months to three years and all have money. Six weeks wages are due them. At Grace mine, inland from Michipicoten harbor, the company has about 130 employees who are under quarantine because of smallpox.

ACTION APPROVED**Evans' Arraignment of Members
of Court-Martial Approved
By Navy Officials.**

Washington, Sept. 24.—At the navy department to day the fact was learned that the "aged civilian" whom Assistant Paymaster Richworth Nicholson recently attacked at a public ball at Chefoo, China, was the German consul at that place. Nicholson, who was said to be drunk at the time, was convicted by court-martial and sentenced to reduction of five numbers in grade.

Rear Admiral Evans, commanding the Asiatic station, in his review of the findings, severely arraigned the court for the inadequate sentence imposed. It appears the German consul did not formally report the matter to his government, supposing Nicholson would be properly punished by the American court.

It is reported the officers who composed the court will protest to the navy department against Admiral Evans' arraignment of their conduct. No such protest has reached the department, but the Associated Press can state on high authority the conduct of Assistant Paymaster Nicholson is a source of mortification to the navy department officials and that the action of Admiral Evans in arraigning the court for what is considered its inadequate sentence is heartily approved.

REFORMS IN BULGARIA

Sofia, Sept. 24.—Diplomatic agents of Russia and Austria-Hungary have informed the Bulgarian government they have been instructed to communicate that their governments, in agreement with other great powers, are resolved never to depart from the published program of reforms in Macedonia, and that Bulgaria must not count on any support for any other purpose. The agents further announced the same declaration would be made at Constantinople.

The imperial Ottoman commissioner has informed the Bulgarian government that the sultan has promulgated an order sanctioning the program of reform which is to be carried out by a mixed commission, and that he has deputed Hilma Pasha to superintend the executive of the program with orders to suspend the persecution of Bulgarians.

Sofia, Sept. 24.—According to a telegram received to day from Kostendil, 600 Turks were killed in a fight at Kotehian, Sept. 13. The Turkish force numbering 7,000. After the fight the troops, enraged at their losses, pillaged and burned a number of Bulgarian villages.

RESOLUTION ADOPTED.

Columbus, Sept. 24.—The Ohio Bankers' association to day adopted a resolution favoring legislation to enable the secretary of the treasury to place in circulation the surplus reserve of the government.

CRIPPLE CREEK CASE**Judge Seeds Orders Military
Prisoners Turned Over to
Civil Authorities.**

Cripple Creek, Colo., Sept. 24.—In the district court to day Judge Seeds overruled the motion to quash in the case of the four military prisoners for whom writs of habeas corpus were issued recently, and ordered the prisoners turned over to the civil authorities. Seeds said he could not subscribe to the doctrine advanced by the respondent that military was supreme and not amenable to the court, because to do so would mean to overthrow free government and substitute monarchy.

The court said the question involved was: Does the executive order calling troops constitute a justification of the arrest. He held civil law had not been overthrown in Teller county and no evidence had been presented that lawbreakers would not be prosecuted and punished by the civil authorities. Seeds also strongly rebuked the presence of troops in the court room. Counsel for the prisoners was not present when the decision was rendered. General Chase declined to obey the order of the court, but it is understood Governor Peabody will instruct him to turn the prisoners over to the civil authorities. The four prisoners were brought into court this afternoon guarded by thirty-five soldiers, who removed them to Camp Goldfield after the judge's decision was given.

A strike has been on in this district since the middle of August, the men demanding an eight hour day. The mine owners alleged many miners desired to remain at work if given protection and Governor Peabody, at their request and against the protest of the local authorities, ordered almost the entire militia of the state to the district under the command of Brigadier General Chase. Since then members of the miners' union have been arrested with a warrant and held in the guard house. Habeas corpus proceedings were begun in their behalf last week. Chase and his legal advisers held that though martial law was not formally declared, it was really put in force by the order issued by the governor directing troops to maintain order and that therefore the civil court had no jurisdiction.

Denver, Colo., Sept. 24.—Governor Peabody said to night the decision Judge Seeds in the habeas corpus cases at Cripple Creek would be respected and the prisoners be turned over to the civil authorities. The governor declined to say what course would be pursued in the event the civil authorities failed to prosecute the men who are charged with crimes.

MANILA NEWS

Manila, Sept. 24.—Dominador Gomez, a former Spanish officer, awaiting sentence upon the charge of maintaining an illegal organization known as Union Obrero, was to day charged with rebellion and insurrection for inciting the ladrones and leaders in the provinces of Rizal, Bulacan, Laguna, Cavite and elsewhere to take up arms in rebellion and insurrection against the authorities of the United States. This has resulted in a recent outbreak of insurrection in the provinces named, in the form of guerrilla warfare, carried on through the influence of Union Obrero and aided by its members, so-called nationalists, connected with Juntas now located at Hong Kong and in Japan and Madrid.

POWELL MAKES REPLY

Santo Domingo City, Sept. 24.—United States Minister Powell has made a vigorous reply to the Dominican foreign minister on the subject of the Dominican government's bill for establishing neutrality of Dominican waters and making certain ports free. In his note Powell says the United States government can not accept this measure, that the foreign minister's response to his recent protest is very objectionable to the United States government and that such a measure as proposed is antagonistic to the fundamental principles followed by his government. The Dominican foreign office has informed Powell it will pay the claim of J. Sala & Co. within a few days, accepting the American minister's proposition for adjustment of this claim. Sala loaned the government \$215,000, and though at first recognized, the claim was afterwards contested. Sala died leaving his claim to his wife, an American. Powell was instructed to effect a settlement.

TO MEET IN SAN FRANCISCO.

Baltimore, Sept. 24.—The sovereign grand lodge of Odd Fellows decided to meet next year in San Francisco. The committee on finance reported favorably on the proposition to build a million dollar temple in Baltimore, recommending the enterprise be placed in the hands of the local lodge with authority to solicit subscriptions.

St. Joseph, Mo., Sept. 24.—The report of expert accountants who have been working on the books of the city under the direction of Mayor Starr, shows hundreds of receipts for vouchers for warrants issued by the city are missing, the total amounting to \$225,000.

**RELEASED FROM
IMPRISONMENT****SOCIALISTS TURNED LOOSE
BY PORTORICAN COURTS**

Insulted the American Flag and Threatened Life of Gov. Hunt—Americans Condemn Decision—Judges All Natives.

San Juan, Porto Rico, Sept. 24.—The district court has ordered the release of Eduardo Conde and Leonidas Guillot, socialists, recently sentenced to six months imprisonment for insulting the American flag and threatening the life of Governor Hunt. The majority of the judges of that court are natives. Americans condemn the decision to release the two men. Certain newspapers continue to vilify abuse Governor Hunt and inciting the black flag demonstration when he returns Oct. 1. The police are on the alert and the government firm. The reception of the governor, however, will, at his personal request, be quite simple. An uneasy feeling prevades San Juan.

A STORMY SCENE.

Buda Pest, Sept. 24.—The session of the Bulgarian diet to day was marked by stormy scenes, which became so boisterous as to necessitate the suspension of Barabbas, a member of the Kossuth party, who went so far as to say his party no longer believed the statements of Emperor Francis Joseph. Barabbas later tried to apologize, but his colleagues refused to permit it, and a vote of censure upon him has been recorded on the minutes.

CHANGE OF VENUE DENIED.

New York, Sept. 24.—Justice Blanchard, in the supreme court, to day denied the motion of Samuel L. Parks and Timothy McCarthy, walking delegates of the house of Smiths' and Bridgemans' union, for a change of venue in indictments against them charging them with extortion.

SENSATIONAL STORY

London, Sept. 24.—The Mail's correspondent at Berlin telegraphs a sensational statement that there is a possibility of a Kossuthist revolution in Hungary. He says that as a result of the German emperor's visit to Vienna, Germany has promised to assist Austria with troops should Austria be faced with the necessity of using armed force in Macedonia and simultaneously suppressing a revolution in Hungary. That the latter is not impossible, continues the correspondent, may be gathered from the fact that General von Bec, chief of the Austrian staff, submitted a plan of mobilization to Emperor William last week. The idea of placing Prince Frederick, second son of the German emperor, on the Hungarian throne, receives no support in Germany. The Mail's correspondent at Berlin believes that the Russian foreign minister is bringing to Vienna a new scheme for Macedonian reforms; also a plan for the consideration, according to which Turkey may be allowed to fight Bulgaria and Serbia, and, having beaten them, she shall exercise suzerainty under supervision of Austria and Russia, who will find money and ammunition for Turkey.

London, Sept. 24.—The correspondent of the Times, writing from Beirut, says nothing but the presence of the American squadron prevented a recent riot there from enlarging into a general massacre of Christians.

KILLED IN A WRECK

Marion, Ind., Sept. 24.—Four men were killed here this afternoon when the interurban car ran into a Cincinnati, Cleveland & Louisville construction train. The locomotive fireman is among the dead.

TREASURE SHIP.

Jacksonville, Fla., Sept. 24.—Rumors of the finding of a treasure ship off Miami was confirmed to day when Captain Jennings and three of a crew of the wrecking schooner Osceola filed a libel against the cargo of a sunken ship. Captain Jennings has been searching for this vessel for many years. It is supposed to have gone ashore in 1835, loaded with ore from Mexican mines. It was found in five feet of water near Miami. Its cargo, which has only been partly examined, has been found to consist of silver ore.

SUSPECT ARRESTED.

Wathene, Kan., Sept. 24.—William Muncie was arrested on an old warrant charging him with an attempt to kill. He answers the description of one of the Burlington train robbers and officers consider the capture important. The prisoner was put through the sweat box, but made no admission concerning the hold-up.

STREET RAILWAY STRIKE

Newark, N. J., Sept. 24.—The entire street railway system is tied up by a strike. The men asked an increase of wages and recognition of the union.

TRAIN ROBBERS**Hold up the Atlantic Express on
the Oregon Railroad & Navigation
Line.**

Portland, Sept. 24.—The Atlantic Express on the Oregon Railroad & Navigation line, which left here at 8:35 last night, was held up by four masked men 3 1/2 hours later near Corbett station, twenty-one miles east of here. One of the robbers was shot and killed by Express Messenger Korner. Engineer Ollie Barrett was seriously wounded by the same bullet. After the shooting the robbers fled without securing any booty.

Two highwaymen boarded the train at Troutdale and after the train had got under way they crawled over the tender, covering the engineer and fireman with revolvers and told them to stop near Corbett. When the train slowed down two more men appeared. Two robbers compelled the engineer to get out of the cab and accompany them to the express car, while the others watched the fireman. The men carried several sticks of dynamite and when they came to the baggage car, thinking it was the express car, threw a stick at the door. Express Messenger Korner heard the explosion and immediately secured a rifle and opened fire. The bullet pierced the heart of one of the robbers and went through the body, entering the breast of Engineer Barrett, who was just behind him. Barrett's wound is not necessarily fatal. After the shooting the other three robbers fled, without securing any booty. A sheriff's posse left here on a special train for Corbett about midnight.

They found upon their arrival one of the robbers a short distance from the scene of the hold up, badly wounded in the head. He gave his name as Jim Connors, of Portland, but refused to give the names of his companions, or state the direction they fled.

DECISION REVERSED

Dubuque, Sept. 24.—Judge Shiras has written an opinion for the United States court of appeals in the case of the Christie Grain and Stock company et al. appellants, vs. the board of trade of Chicago, appellees, reversing the decision of the federal courts of Missouri and remanding the case to that court with instructions to dismiss the bill at complainant's cost. The board of trade secured an injunction in the lower court against the Christie company, restraining it from obtaining from telegraph companies any quotations furnished by the board of trade, alleging "quotations were private property and could not be furnished except upon contract. Testimony developed that 85 per cent of the transactions of the board was gambling in margins and that by admission of the board it was shown it maintained bucket shops." On this evidence the appellate court holds that as the board did not come into court with clean hands or for lawful purpose, clearly it was not the duty of the court of equity to grant any relief prayed for by it, that the transactions were in violation of the statute of Illinois, therefore unlawful in New York.

ILLINOIS WON

St. Paul, Sept. 24.—The Illinois State National Guard team won the Washburn trophy in the interstate rifle contest at Lake City, Minn., yesterday and led contestants by ten points, but to day the splendid work of the Illinois boys put them far in the lead. The trophy is now in possession of Illinois. It is stated Minnesota will challenge again next year and Iowa and possibly Wisconsin.

Totals: Illinois—Damon, 236; Clineen, 236; Quinn, 233; Lewis, 243; Jones, 254; Hopper, 222; Pederson, 204; Bredt, 258; Scott, 245; Daniel, 237. Total—2,351.

Minnesota—Corrison, 231; Riche, 199; Chase, 227; Falk, 200; Bird, 208; Clarke, 235; Britton, 201; Smith, 211; Rice, 205; Private Britton, 238. Total—2,146.

Iowa—Fisher, 188; Cooke, 136; Bonebright, 196; Grist, 236; Baughman, 206; Cummings, 201; Hilderbrand, 244; Hird, 228; Wilsey, 223; Radcliff, 223. Total—2,134.

CONGRESSMEN TO MEET.

Omaha, Sept. 24.—A meeting to be attended by congressmen of Nebraska, Kansas and Missouri, will be held at Kansas City, Oct. 15, for the purpose of asking a big appropriation from the government to rip-rap the Missouri river sufficiently to prevent a recurrence of the recent floods. Senator Millard, of Nebraska, says unless something is done Iowa will gain considerable land from Nebraska as a result of cutting.

MASTER BAKERS.

Milwaukee, Sept. 24.—G. H. Hohengarten, of St. Louis, was to day chosen president of the United Master Bakers of America. Among the deputy presidents chosen were George Riedel, of Illinois; Max Ruppen, of Wisconsin; Robert Wilson, of Minnesota.

YALE'S ANNIVERSARY.

New Haven, Conn., Sept. 24.—Yale university entered upon its 200th year to day when the work began in academy and scientific departments.

**ADDRESS OF
STEVENSON****FORMER VICE PRESIDENT
TALKS AT BLOOMINGTON**

At the Dedication of McLean County's New Court House—Subject of His Speech was "Mobs"

Bloomington, Ill., Sept. 24.—Former Vice President Stevenson to day denounced mobs in an address at the dedication of the new court house for McLean county. Stevenson declared mob rule was a greater menace to the public welfare than is to be apprehended from foreign foes. "Mob spirit is in deadly antagonism to all constituted authority," said Stevenson. "Unless it is curbed it will sap the foundation of organized society. The killing of a human creature is no less murder when it is an act of a mob than when it is an act of an individual. There is no safety to society but in an aroused public sentiment that will hold each participant amenable to law for the consequences of a crime either perpetrated or abetted. Let him be accounted a public enemy, who would weaken the bonds of human society and strike down what it has cost our race, sacrifice and toll of centuries, to achieve."

WELCOMED HOME

Baltimore, Sept. 24.—Cardinal Gibbons arrived this afternoon and was met by an imposing delegation of leading citizens. Mayor McLean and Judge Heusler welcomed the cardinal home. The cardinal replied briefly, expressing the great pleasure which it gave him to get back among his home friends. Escorted by a procession of fully 8,000 persons the cardinal was driven to the cathedral, where the cardinal, mayor and councilmen reviewed the parade. Following the parade there was special service in the cathedral, including an address by Gibbons.

GRAND CIRCUIT RACES

Columbus, Ohio, Sept. 24.—The contest between the Quaker and Norris in the 2:15 trot was the feature to day at the Grand circuit meeting. The race was not startling, but the contenders showed they were able to keep going at about the same speed all day.

BANQUET TELEGRAPHERS.

Milwaukee, Sept. 24.—Old time telegraphers were banqueted to night. There were 20 guests, W. J. Lloyd, of Chicago, was toastmaster. Among those who responded to toasts were Col. Wm. B. Wilson, of Philadelphia; Walter C. Burton, of New York; M. J. O'Leary, of New York; William Mavor, Jr., of New York. The hit of the evening was vocal selections by Miss Bessie O'Brien, a well known soprano of Chicago.

OFFICERS RE-ELECTED.

Atlantic City, N. J., Sept. 24.—Carroll D. Wright and Rev. Walter F. Greenman, of Watertown, Mass., were re-elected president and secretary respectively of the National Conference of Christian churches to day.

MARBLE WORKERS.

Chicago, Sept. 24.—None of the four firms, members of the National Marble Dealers' association, who have maintained a lockout of their employees since Monday, were able to open full handed to day, although all undertook to resume work.

LOCKOUT ENDED.

Cincinnati, Sept. 24.—The lockout of the National Marble Dealers' association ended this morning, when the shops here were opened to union and non-union men. There is no strike in any of the shops.

CARBONDALE REUNION**Gen. Black, Col. Warner, Ex
Gov. Fifer and Mrs. John A.
Logan Address Veterans.**

Carbondale, Ill., Sept. 24.—Gen. C. Black, commander-in-chief of the Grand Army, to day delivered an eulogistic address to 12,000 veterans and their friends at the reunion of the Southern Illinois Soldiers' and Sailors' association.

Mrs. John A. Logan spoke to the veterans and addressed some of her remarks especially to the Thirty-first Illinois regiment, in which her husband served as colonel when he first entered the army. Col. Vespasian Warner and former Governor Joseph W. Fifer delivered short addresses. To night a public reception was tendered Mrs. Logan.

ADOPT RESOLUTIONS

Pittsburg, Sept. 24.—Siamon Burns, general master workman of the Knights of Labor, has returned from Washington, where he has been attending the meeting of the general executive board. He reports the adoption by the board of resolutions which state that the action of certain labor organizations to take up the fight of the enemies of President Roosevelt because of his course in the dispute existing in the government printing office, is not in the interest of organized labor, but a political move, that if carried out will disrupt or lower organizations. The resolutions suggest that the controversy be referred to Senator Hanna, who, it is stated, is a friend to both organized labor and Roosevelt, for decision. The resolutions say Roosevelt is the best friend organized labor ever had in the white house.

Washington, Sept. 24.—The executive council of the American Federation of Labor announced to night that after consideration of the case of W. A. Miller, foreman in the bindery of the government printing office, whose discharge and reinstatement by order of the president has been widely discussed, it has been referred the entire subject to a sub-committee for further consideration.

DIED, AGED 106.

Peoria, Sept. 24.—Life in three centuries had been seen and experienced by Mrs. Mary Hill, who died at the county hospital Tuesday afternoon at the advanced age of 106 years and 1 day.

She was the oldest woman in the state and probably in the United States.

A remarkable feature in connection with her life's history is the fact that she was born in Illinois and had never lived out it. When she was born Illinois was merely a part of what was called the northwestern territory.

Mrs. Hill was born Sept. 21, 1757, only four years after this section of the United States had been ceded to it by the British at the close of the war of the revolution. George Washington was still living and when he died she was more than two years old. She had therefore lived under all the president of the United States. It seems almost incredible, but it is declared to be a fact.

Mrs. Hill was born in what is now Monroe county, where the first settlers from Kentucky made their new home. Her people were Kentuckians and floated down the Ohio river and stemmed the Mississippi and landed at old Kaskaskia, the first capital of Illinois. There they settled and there the woman who died Tuesday was born.

In her domestic career Mrs. Hill had three children, but she outlived them and did not know where her grandchildren were. She was received at the county hospital on March 21, 1900.

ILLINOIS CONFERENCE

Monmouth, Ill., Sept. 24.—The central Illinois conference of the Methodist Episcopal church is in session here, Bishop C. C. McCabe presiding. Rev. Henderson Fitchie, of Council Grove, Kan., the first born son of Warren county, born here in 1828, lectured on "Pioneer Methodism in Illinois."

Reports from all the presiding elders were heard yesterday. Friday was set as the time for electing ministerial delegates to the general conference.

Rev. G. W. Perogy preached the annual missionary sermon. Last night the anniversary of the Freedmen's Aid society was held.

ANTHRACITE COAL OUTPUT.

Wilkesbarre, Pa., Sept. 24.—Orders for the restrictions of the anthracite coal output has affected nearly all collieries in this region. Over 45,000,000 tons of coal has been mined since Jan. 1, several million tons more than was ever produced for a like period in the history of the mining industry. The present glut in the market and efforts to prevent break in the prices, is the cause of the restriction.

TO BRING TEST CASES.

Springfield, Sept. 24.—The minutes of the state supreme court cases in which the constitutionality of the state labor law is being tested, are to be argued in the supreme court to day. It is alleged that the cases will be argued in the supreme court to day. It is alleged that the cases will be argued in the supreme court to day. It is alleged that the cases will be argued in the supreme court to day.

**LOSES CONTROL
OF HIMSELF****GEORGE DAILY TRIES TO
MURDER WIFE.**

Falling in the Attempt Burn His House and Barn, Defying Firemen—Finally Commits Suicide.

Oconomowoc, Wis., Sept. 24.—George Daily attempted to shoot his wife, shot his brother-in-law, set fire to his house and barn and finally committed suicide by blowing his head off in his burning house. Mrs. Daily, with her four children, left her husband this morning and went to her mother, Mrs. Lucy Kellogg. This evening Daily came to Mrs. Kellogg's and shot at his wife through a window. His brother-in-law, Cliff Kellogg, came to the door and Daily shot him in the foot. Then he drove to his home, set fire to his house and barn. He kept the firemen at bay for about an hour while the barn burned to the ground and house was nearly consumed. Then he shot himself, dying instantly.

APPOINTMENTS.

Springfield, Sept. 24.—Governor Yates to day appointed Judge Amos Miller, of Hillsboro, and Morris Emerson, of the Lincoln News-Herald, members of the voting machine commission. The last legislature passed a bill providing for the use of voting machines in Illinois, and for the appointment of a commission to report on machines to be used.

TO TRY NEW PLAN

Advertising Men Meet in Philadelphia to Launch New Idea.

The following is taken from a recent issue of the Philadelphia Record is of interest as indicating the growth of the co-operative idea that seems to be growing along altogether new lines. One of the men interested in the new movement is Harry N. Kirby now connected with the Butterick Advertising company of New York and Chicago:

"Leading advertising agents are about to enter upon a campaign for the development of business in the hitherto almost untouched textile field. Philadelphia has been selected as the first point of operation. There arrived in that city on Monday a large body of workers, headed by Thomas Balmer, manager of the Butterick 'Trio,' and including W. H. Tripp, P. M. Raymond, W. C. Howland, R. B. Drake, F. W. Wright, E. H. Kimball, W. H. Black, George B. Black and H. N. Kirby. These energetic men from west and east found hearty welcome at the hands of co-operating local advertising agents, who have placed themselves and their office equipment at the disposal of the visitors, supplying data with respect to present and prospective advertisers. Co-operation is the basic idea of the whole campaign—agents, publishers, merchants and manufacturers are to work together with the idea of mutual betterment. A public must be reached; how to reach it with exactitude and large results is the crux of the problem.

"The originators of the present movement have been instrumental in advancing the interests of many lines of business by bringing them into close touch with the consumers of their wares. Numerous instances of large exploitation and success can be shown. If in other fields, why not in the rich realm of textiles? Hence the concerted effort during the fall of 1903 to present the advantages of newspaper advertising to a class of producers which has hitherto neglected this great field of publicity. The textile industry, which outranks in importance the iron and steel and any other single industry in the United States, has been barely touched. Most of the business of the great manufacturing concerns which produce the every day necessities of the millions of American consumers is done through the old-fashioned agencies, which practically limit their output to the selling capacity of the one or more commission merchants who have the handling of their products. Manufacturers are not content with this slow system but they have put up with it because until now nothing better has been offered. They have been asking themselves: 'Can we advertise our products? If so, how?' The co-operative workers are to demonstrate that they can most profitably advertise and are to show them how.

"In the belief of these campaigns profitable advertising opportunities are open to manufacturers of carpets, Turkish towels, furniture, shoes, knit goods (including stockings and underwear), dress goods (whether of silk, wool, cotton or any mixture), dress linings, braids, curtains, lace veils, sweaters, hair cloth, hammocks, flannels, plain and cotton sheetings, lap robes, skirts, cloaks suits, wear for children, high-grade toilet articles and a hundred articles besides. The movement is recognized as a large one, if not revolutionary, and the indications are that many manufacturers will go into it on the Shakespearean suggestion of taking the tide at the flood."

CURED HEMORRAGES OF THE LUNGS.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." J. A. Obermayer, City drug store.

One of the most important requirements in a medicine to be given to small children should be that it is pleasant to take. Bad tasting medicines disturb the stomach, destroy the appetite and it is extremely difficult to get children to take them. The pleasant flavor of Re-Go Tonic-Laxative Syrup, the certain cure for dyspepsia, constipation and biliousness, makes the most sensitive persons and the ideal laxative for young children. 25, 50c and \$1 bottles sold by Lee P. WOMAN AND FASHION

A Gown From Paris.

The gown illustrated is of silver gray crepe de chine, trimmed with gray panne and silk fiber lace, dyed to match the crepe de chine. The skirt is shirred around the hips and worn over a foundation of gray silk. The corsage has a pointed lace yoke, with collar combined, ornamented by a sur-

plished pelerine formed with pinhead tucks, and is finished with tucks of crepe de chine, panne velvet and large lace medallions. The belt is also of panne velvet. The sleeves are of crepe de chine, with full flowing puffs of chiffon with deep cuffs of lace.—New York Mail and Express.

Shirrings of Velvet.

Although velvet hats will be in the ascendant so far as style is concerned, felts are not tabooed by any means. The indications are that rough and hairy felts will prevail most generally, and they come in plateaus and a wide variety of stiff shapes, the colors being mostly brown and gray. In the majority of cases the brim will be sufficiently tractable to admit of the milliner's free manipulation.

Among fancy braids talked of is enameled of lousine silk, narrow strips of which are plaited. Some very pretty shapes are made of this.

There is no better evidence that director styles generally will soon be with us than the fact that some of the newest hats have a crown called the director. It never exceeds three inches in height, is straight at the sides and not very wide. It represents a natural reaction from plateaus and will be a decidedly pleasing novelty, not too extreme.

Buckles are to the fore, both square and elongated. They come in cut steel, jet or either gilt or silvered metal. There is no word concerning rhinestones or other glittering gems.

The Shirt Waist Jacket.

Of the invention of wrap conceit there is no end. Among the newest is the "shirt waist jacket," so called presumably so much because it covers a shirt waist as because it is so brief as to reveal the pettiness of that garment.

The sleeves end just below the elbow, and in front the jacket is cut very low and finished with long revers. Scarlet silk flannel makes up smartly into one of these jackets. It has black moire revers. The back of the little coat is tight fitting. In front there is a slight blouse, which is drawn into the waist by a narrow black moire belt. Below the belt the silk flannel extends in the shape of a narrow yoke over the hips with two tab shaped pieces in front. This little yoke portion is finished with rows of black stitching.

The Plume.

No hat is so becoming as the one that has a long fine white plume draped

over it. It gives softness to the face and is, after all, an economical way of trimming a hat.

This photograph shows a wide brimmed white horsehair hat, from which has been taken the faded trimming. It is draped with one plume, beginning in a paste buckle, the long quill of the plume left bare.

Still Good, Though Cheaper. Beautiful indeed are many of the pastes that are being sold at a small proportion of their former prices, and many of them are good investments for the negligences of the coming winter can be effectively trimmed with them, says a New York fashion writer. The various grape trimmings in white and cream—large clusters of grapes with long foliage—can now be obtained at an eighth or less of their past prices, and are quite as effective as ever, so far as the fashionable world is concerned.

A WESTERN TRIP

An Old Soldier Tells of the G. A. R. Meeting in California.

W. A. Peak was one of the soldiers from this vicinity who attended the G. A. R. encampment in California and has written of his trip as follows to F. D. McAvoy: Livermore, Cal., Sept. 20, 1903.

Dear Sir—When I last saw you on the streets of Jacksonville on the eve of starting you requested me to write. So I will endeavor to give you a brief sketch of my travels and what I saw on the way here and after I got here. Leaving Jacksonville at 7:10 a. m. on Aug. 10 via the Wabash to Quincy, I met with my comrades from New Canton; so at 5 o'clock p. m. we started on the Burlington route for California via St. Joseph to Denver, thence on the Denver & Rio Grande via Colorado Springs, Pueblo, Royal Gorge, Glenwood Springs, Grand Junction, Salt Lake City, Ogden, Sacramento to San Francisco; arriving on Sunday at 5 o'clock p. m., being seven days and six nights enroute. We passed through six states—Missouri, Colorado, Nebraska, Utah, Nevada and California.

On arriving at Frisco we were met by a reception committee, who escorted us to our headquarters, which were in the Palace hotel, the most elaborate hotel in the city. Our quarters were in the Winchester hotel. Monday we visited the city hall. This magnificent building cost \$5,000,000. The hall of records, a circular fire-proof building, is connected with the main building by an open corridor. The dome is 124 feet high. There is a free library located on the second floor and contains upwards of 100,000 volumes. Next came the California state board of trade. This valuable organization is to widen the scope of inquiry concerning the resources and advantages of the state and to supply information to visitors. Next was the Park museum building, which is an elegant structure of Egyptian pattern and contains a great collection of interesting relics, paintings, statuary, curios, coins, etc., and very valuable collections have been added each year. Six thousand visitors passed in and out of the Park museum the day we were there. Next was the Cliff house. This is one of the points to be visited by all and one too that affords the greatest pleasure. An enclosed balcony surrounds the building affording visitors a protected and wonderful view of the marine approach to the Golden Gate and harbor; also a splendid view can be had of the world famed seal rocks, where hundreds of seals climb these rocky sides and lay in the sun and bark in reply to the roar of the mighty ocean it breaks upon the rocks. Next are the sutro baths and they are acknowledged to be the finest baths in the world. They are 500 feet long and 250 feet wide and have 517 private dressing rooms and an amphitheatre with seats in tiers, seating 3,750 people; also a promenade leading 375 meters; 100 feet of glass cover the roof and sides, which gives plenty of light to the multitude of bathers. So I said to Captain Marsie that this was so nice that we must take a swim. So in company with 1,500 others we had a swim and then took a stroll along the beach, where occasionally we got our shoes filled with water by the incoming waves. As the day was getting late we boarded the cars for the city. The site of San Francisco is a succession of hills extending from the ferries westward to the Cliff house on the Pacific coast and it was to climb these hills that the cable street railway was invented. We passed through Golden Gate park, embracing 3,000 acres of highly cultivated gardens filled with wonderful flowers and plants brought from all parts of the tropics. Then we visited different headquarters and spent the evening with many of our comrades from different states and I had the pleasure of meeting my old time friend, Wm. Barnes, formerly of Jacksonville, whom I had not seen for fifty years.

Tuesday was the great parade of cavalry, artillery and naval, which was a most magnificent affair and we were spectators (I mean we infantry). All we had to do was to find a place in the crowd where we could hold on to the rope and view the parade as it passed by.

Wednesday was the grand and great parade, where all took a part. Illinois had the honor of being at the head of the parade. The decoration all along the line of march was grand, there being a cable line stretched all along on both sides of the streets to hold the crowd back. And the old comrades stepped off as lively 2-year-olds and everything went off nicely. Nothing was lacking except music, which was not as plentiful as was expected, and that was on account of President Roosevelt throwing a bombshell into the camps of the Union Labor party on his visit through California, and the Union Labor bands refused to play with the military bands. Consequently the bands were so far apart it was hard to keep sight from the music. The illumination at night was a grand sight, especially the grand double arch and tower at the depot ferry landing, and at Mechanics' hall, where they had speeches from all the noted generals and mayor of the city. Next day after the parade the comrades from Pike county that came through with me all pulled out for home and left me alone; so I had to look around for new associates, whom I soon found.

Oakland gave an invitation to all comrades and their friends to a free dinner to be served by the ladies of Oakland; so I fell in company with a Boston party of ladies and gentlemen and went across the bay to Oakland to take part at the dinner table, which was filled with all kinds of good things.

Santa Barbara is one of the most attractive seaside places in California; it is a land of flowers. It is the flower center. The beach has exceptional bathing facilities and we all enjoyed the cool, refreshing splashing of the breakers for three hours. Then we boarded the train for Los Angeles, 400 to number, and on our arrival there we were met by a reception

committee and escorted to the places of abode. After taking a night's rest next day we were marched out to East Lake park, where we were seated to partake of another dinner, which surpassed them all. I fail to have the language to express its grandeur and goodness. Los Angeles is the commercial and tourist center of southern California, with a population of 140,000. Its hotels are excellent and there are many points of interest within the city limits, such as the oil district, the beautiful residence district, and the old Mexican settlements, which are well worth visiting. After visiting all over the city we took the trolley line to Pasadena. It is the home of the millionaires and many superb residences surrounded by stately grounds have been established there. Of the several handsome residence streets, Orange Grove avenue takes the lead. For two miles it is lined on either side with beautiful estates, which rival anything in America. We passed on further up the valley in the most wonderful orange district in the world. The entire valley is a vast garden of oranges, lemons, almonds and apricots, while on either side the streets are fringed with palms. The story of its beauty cannot be well told. There are other attractive places near Los Angeles, such as Santa Monica, Rodondo Beach and Long Beach, all seaside resorts and we visited them all. At Santa Monica there were 1,500 of us bathing at the same time. On our way home we stopped at the state soldiers' home and was driven all over the grounds in carriages, and then we took supper with the soldiers. They do all their cooking by steam and everything is up-to-date. Their grounds consist of 400 acres, mostly laid off in landscape gardening and drives and walks bordered with palm trees and pepper and umbrella trees. There are 2,800 enrolled at the home. There was a fascination about this home which will live long in the mind of a visitor while looking upon the bent and decrepit forms of the comrades as they marched in for supper. One finds it hard to realize that forty years ago we were all strong and healthy and where duty called we were willing to go. You may sing of the generals who conquered nations and defended the forts with great skill and performed each task with good will, and I admire them all, but tell you quite plainly all their efforts to win would have been in vain if not helped by the soldiers who fought in the ranks.

After our visit at the soldiers' home we boarded the cars for the city of Los Angeles. Next day we visited the ostrich farm, where we saw 400 ostriches in runs made of wire. They were of all ages, from two weeks to twenty years. They live to be ninety years of age. We passed on up to Woodland, another millionaire town, and saw a great many mammoth residences and the famous hotel where Rockefeller paid \$100 per day for one room. Next day I told my party that the best of friends must separate; so I bade them good-bye and boarded the car for Merced, where I found my niece and nephew awaiting my arrival. So I visited all of the vineyards, orchards and packing houses. I came from Merced to Livermore, where I met another party of relatives; so we visited all the packing houses and wineries and one hop field, containing 600 acres and there were 1,800 men, women and children engaged in picking hops. Each person is supposed to pick 100 pounds of hops per day at one cent per pound, which would be one dollar for each person or \$1,800 per day; so you can see that it is quite an industry. I leave here for San Francisco; there I will visit Oakland for a few days and start for home at Jacksonville. I will say that I have had a very enjoyable trip, much more so than a great many that came through. I have traveled fifteen to thirty miles per day every day over the nicest roads I ever traveled on. The roads are all graveled and sprinkled with oil and it makes a perfect asphalt road and does away with the dust. So here's to the soldiers who fought a good fight.

And finished not because of slight wound.

Who slept on the field thro' the long dreary night.

Who returned after long years of toil to his home;

All true men respect him wherever he's known.

The soldier who fought in the ranks.

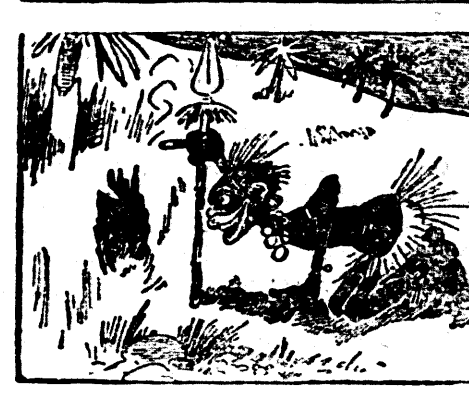

Yours truly,

W. A. PEAK.

A Candid Opinion.

"Now," said the hopeful young author as he finished reading his synopsis, "that's the plot of my novel except for the last chapter. Can you tell how the story's coming out?"

"No," replied the critic, "but I can tell how it isn't coming out."

"How do you mean?"

"In book form."—New York World.

Gill's "A Little Outcast" company, which will be presented at the Grand opera house next Monday night. This is the quintette which made such a success last season with this same production. It is composed of small boys with marvelous voices who were discovered in various newboys' homes throughout the country, and who are receiving the best training to be had.

INJURED BY A HORSE.
A. C. Barnes, a hotel keeper of Manchester, was driving to the city Thursday and after he passed the residence of D. Masters his horse became frightened at a passing street car and the driver alighted to handle the animal better and while doing so was badly kicked. He was taken to the office of Dr. Cochran. An examination showed a badly contused wound. Mr. Barnes was sent home by train.

OWES HIS LIFE TO A NEIGHBOR'S KINDNESS.
Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea; was attended by two physicians, who gave him little, if any, relief, when a neighbor, learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by all druggists.

WEDDING ANNOUNCED.
Mrs. Mary Buhre has issued invitations to the marriage of her daughter, Gertrude Josephine, to Mr. Michael White, of this city. The wedding will take place Tuesday morning, Sept. 29, at 8 o'clock at the Church of Our Savior.

RACE MATINEE

Gentlemen's Driving Club Hold Another Successful Meet—Five Races on Card—Attendance Large.

The third matinee of the Gentlemen's Driving Club was held at the fair grounds Thursday and was a grand success. The racing card was a good one, there were a number of close finishes and every race had a good field of starters.

Interest centered in the special trot and pace and the 2:30 trot. It required three heats to settle both races and then it was hard to tell which of the horses were the best.

The surprise of the afternoon was the performance of Ballock in the 3-minute trot, who had a burst of speed and who won the race handsily as he pleased.

The attendance was fully as large as expected and the grand stand was well filled, while at the side of the track there must have been at least 300 vehicles.

Everything moved smoothly. There were no complaints over the decisions of the judges, while the starter was eminently fair and just.

Dr. J. W. Sperry officiated in this latter capacity and the judges were: Gates Strawn, Hon. A. L. French, of Chapin, and Edward Joy, of Markham. The timers were F. L. Sharpe, O. C. Henry and J. W. Clary.

The first race called was the green pace, with six entries and same number of starters, as follows: Omy was named by S. S. Ragen; Easter Hal, (L. Biggs); Luna Gift, (S. S. Bardsley); Silver Lady, (C. F. Corrington); Bermuda Girl, (William Masters); Bonnie, (C. Self). They were sent away on the third time down in the order named. Omy broke as they went under the wire and was never in it. Self, with Luna Gift, went right to the front and led down the back stretch. Massey, with Easter Hal, was in second position and Masters, with Bermuda Girl, was coming strong in third place. Luna Gift went up at the third turn and Bermuda Girl took the lead, passing Easter Hal, who broke. Silver Lady and Omy were having a nice argument of it on the back stretch, when Omy broke badly and was never in it afterwards. Silver Lady came right along and caught the leaders, coming in just behind Luna Gift. Bonnie trailed far behind the bunch. They finished as follows: Bermuda Girl, Easter Hal, Silver Lady, Luna Gift and Omy. Silver Lady was played and was given third place for pacing an even mile. Time, 1:22.

In the second heat of the green pace they got away after five times down fairly well. Bermuda Girl went right to the front and was never headed, coming home as she pleased several lengths to the good, with speed to spare, in the time of 1:18 3/4, winning the heat and race. The others finished in the order named in the last heat. Omy paced well while she kept at it, and would have been in had she kept her feet.

GREEN PACE.
Summary—2 in 3:
Bermuda Girl 1 2
Easter Hal 2 1
Silver Lady 3 3
Luna Gift 4 4
Omy 5 5
Bonnie 6 6
Time—1:22; 1:38 3/4.

THREE-MINUTE TROT.
The second race was the 3-minute trot, with Lenn (Vosseller), holding the pole in the first heat; Jennie K, (B. Killam); Billy, (George Craig); Ballock, (Gates Strawn). It required five starts to get the field away and Ballock broke under the wire and Haynes failed to settle him until the first turn was reached. Lenn was up by this time and Jennie K stepped into the lead, followed closely by Billy. When Ballock finally settled he squared away and was right after the leaders. He overhauled Lenn at the second turn and, although in the middle of the track, he passed Billy half way down the back stretch and the latter went into a break and was out of it. The big grey fellow, under the splendid piloting of Haynes, won the race steadily as a clock and passed Jennie K at the third turn and came home easily, three lengths to the good. The others finished in the order named. Time, 1:18 3/4.

The first heat of this race was an indication of how things would go and Ballock, after four times down in the second heat, went to the front and led all the way coming home in 1:16, with the others far behind. Jennie K was second and trotted a nice even mile, while Billy, in trying to keep up with her, broke repeatedly. Lenn was outclassed altogether and trailed.

The performance of Ballock was truly remarkable, as he had been on pasture until three weeks ago and had never been in company before but once. The animal is a beautiful performer, with a perfect stride and when he gets his gait he never loses it, but comes steadily and truly. The horse certainly has a future if properly handled. First money to Ballock, second money to Jennie K.

HOUSEHOLD NOTES.

Peaches.
There is hardly a fruit, unless apples be excepted, that shows such a tendency to variation as the peach. Peaches differ in size, color and flavor, and the kind that preserves well often will not do for pies, shortcakes, etc. The housekeeper should make herself familiar with the differences between clingstones and clearstones, or freestones, as they are called in some localities, and should know the properties of the pink, yellow and white fleshed fruit. Clingstones have ordinarily the richest flavor and are nice for slicing. The pink fleshed varieties are best for all cooking purposes, and the firm fleshed yellow fruit makes the most satisfactory preserves.

Whitewash For Cellar.
A whitewash that is good for cellar walls and will not rub off is made by taking a half pailful of lime mixed with water ready to put on the wall, then mix a quart of a pint of flour with a little cold water, pour on it enough boiling water to thicken it, and add it while hot to the lime. Stir well, and it is ready to use. Whitewash for outside use may be made by slaking half a bushel of lime in a barrel; add a pound of common salt, half a pound of sulphate of zinc and a gallon of sweet milk.

Best Way to Beat Carpet.
Perhaps the most thorough way to clean a carpet, especially a Brussels, is to lay it on a clean grass plot, face down, and beat it as it lies there. After being beaten thoroughly it can be dragged by the corners over the grass, which will brush off all adhering dust, and the carpet will be cleaned in the most approved manner. To beat a carpet on a line is but an imperfect way, and the work is not as well done unless by the most patient beating.

Labels For Preserve Jars.
A bright housekeeper has discovered a new system of labeling jelly and preserve glasses. She buys a roll of white passepartout binding for about 8 cents. This is well gummed on one side, and she uses as long or as short a piece as the label calls for. The pasting process is much more quickly gone through with than when separate labels are used.

A NATURAL RESULT.
It is very reasonable to suppose if the foundation of a structure was removed that the building itself is bound to come down. This same principle can be applied to disease. Take remove the cause of sickness, and the illness leaves of itself. Dyspepsia, Indigestion, sickheadache and biliousness have their foundation in stomach disorders. Remove this weakness and the other symptoms are no more. There is one cure for this that all druggists sell for 25c per box, it is called Dr. Gunn's Improved Liver Pills. They get right at the beginning of these diseases and make the cure by taking away the cause of it. We will send a small box free by mail, or a large box on receipt of 25c. Address Dr. Gunn, Philadelphia, Pa.

JUSTICE COURTS.
In Squire Henderson's court Lou Haerle and John Dunn were fined each \$10 and costs for disorderly conduct.

STOMACH TROUBLE.
"I have been troubled with my stomach for the past four years," says D. L. Beach, of Clover Nook farm, Greenfield, Mass. "A few days ago I was induced to buy a box of Chamberlain's Stomach and Liver Tablets. I have taken part of them and feel a great deal better." If you have any trouble with your stomach try a box of these tablets. You are certain to be pleased with the result. Price 25 cents. For sale by all druggists.

HEARD ON THE BEACH.

Taught Young Women Swimming Without Getting Wet.
"Why, certainly, Miss Maude; certainly I will teach you to swim. Now before we go into the water let us get the positions. Just observe me one moment. Place your hands in front, thus, palms out."
"Palms out—yes? Ah, that is easy."
"Certainly. Then your body straight—thus."
"My body—thus—yes."
"Hold your head thus."
"Yes—thus—my head."
"No, no—not that way! Let me show you. Turn your chin up a bit—there! Now—"
"Ouch! You beast, you made me bite my tongue!"
"Can't help little accidents like that. You must be more observant. Now you have it! Bravo! Now when we get into the water remember the position. The first thing will be to learn floating."
"Oh, I adore floating!"
"Of course you do—who doesn't? You will be on your back while I place my arms under your waist, thus—"
"But, Mr. Flanders, we are not in the water, sir!"
"I know, Miss Maude. This is hypothetical water, as it were. I place my right arm under your waist and take your right hand with my left, thus—"
"Yes! Oh, that's very nice, really."
"One minute, Miss Maude—you must be patient. Lean a little back in the crook, please—it makes the idea of floating more realistic. That's right, now, having placed my right arm under your waist and taken your right hand in my left, thus, I—"
"Why—ah—you brute, you kissed me!"
"Oh! Heavens!"
"You did, sir! But!"
"Well!"
"Well! Why don't you go on with the lesson?"—Baltimore News.

Kothin' Doin' For Him.
"You claim to have a regular occupation," said the kindly old lady suspiciously, "and yet you are asking for assistance. How does that happen?"
"Lady," replied Weary Wraggles, with his hand on his heart, "I am telling you the truth. I am de man what sees de sea serpent at de seaside resorts, and you know what a dull season me and de snake has had! Dat's why I am requestin' a small loan of you."—Cincinnati Commercial Tribune

Keeping Him There.
Maize—You certainly sat on Mr. Smarty hard.
Maud—Yes; I believe in the axiom that applies to his case.
"What is that?"
"Have a place for everything and keep everything in its place."
—Cincinnati Commercial Tribune.

As an Economic Question.
"What is that porterhouse steak worth?" asked the professor.
The butcher weighed it.
"Eighty-five cents," he said.
"Well," sighed the professor, "I'll take it, but cannibalism would be cheaper."—Chicago Tribune.

A New Target.
"Do you really believe that lightning never strikes twice in the same place?"
"Of course. After a place is rebuilt it isn't exactly the same, you know."—Atlanta Constitution.

Not Queer in the Least.
Van Quizz—I am told that Mr. Barnham and his twin brother do not speak. Isn't that queer?
De Broune—Not at all. They're dumb. —New Orleans Times-Picayune.

Another Way of Putting It.
"Isn't that music heavenly?"
"Possibly, possibly. At any rate it's unearthly."—Brooklyn Eagle.

FAILED TO LOWER RECORD.
New York, Sept. 24.—Major, who failed in his attempt to day on the Empire City track at Yonkers to lower his record of 2:00.4, breaking on the last quarter and finishing in 2:05. Before making the trial the horse was sold to E. B. Smith for \$40,000.

FACTS IN FEW LINES

The lynchings for the first half of 1903 numbered forty-eight.
Paris has one acre of park for every fifteen persons; Liverpool one for every thousand.
Thomas A. Edison, the inventor, will exhibit some of his latest inventions at the world's fair, St. Louis.
Anonymous remittances amounting to \$35,898 were sent to the conscience fund of the United States during the fiscal year.
The losses of German registered ocean vessels, according to fresh imperial statistics, were eighty-five in one year. Three passengers and 286 sailors were drowned.

It is suggested by Professor Pickering that the streaks which radiate from lunar craters—one from Tycho is 1,700 miles long—are caused by pumice thrown out by the volcano.
The latest indignities that microbes have been subjected to is firing them from a gun. This was done by government officials, and it was found that the bugs were not injured.

A British board of trade return shows 442 strikes and lockouts in the United Kingdom during 1902. The number of employees affected was 236,047, the aggregate duration in working days 2,470,000.
The chronometer is so acutely sensitive that it will detect in one minute an amount of matter which must accumulate for 2,000,000 years before there is enough of it to affect the most sensitive chemical balance.

There is a man in Warsaw, Poland, who has the long distance record for bigamy, bar Utah, Turkey and a few such places. He has seventeen living wives, and each and every one of them is glad that he is in jail.
Ireland possesses the oldest judge in the United Kingdom. This is Vice Chancellor Chatterton, who was born in 1819, six years before Lord Halsbury, and who stepped from parliament to his present position in 1867.

The annual vacation is one of the most efficient weapons against breakdown for those who live in the intense modern life. A well known New York physician used to say that he could do a year's work in eleven months, but not in twelve.
Some large beetles are as good as circular saws. They seize a branch or twig with their deeply toothed jaws and whirl round and round until the twig is sawed off. They have been known to saw a twig as thick as a walking stick in this manner.

The Kickapoo Indians are leaving Oklahoma at a rapid rate and settling in Mexico. The McLeod Standard says it won't be long until the tribe will be forgotten in and around McLeod and that there will be some fine sections of land for sale in the near future.
In the Alps, Mont Blanc, the highest, is tedious, but easy. Delicate women make it by hundreds without much danger. The lower Matterhorn, when conquered, took four lives. Whymper, one of the three who escaped death, afterward broke his leg by falling off a platform at a lecture.

The power plants now in operation at the falls divert one-seventeenth of the volume of Niagara river, and when the flumes now building are completed one-eighth less water will go over the falls, this aside from the water diverted by the Welland canal and by the great volume of the Chicago drainage canal.
The published statement that we now get no pure Mocha coffee is controverted by the United States consul at Aden, who shows that mixing other coffees with Mocha or shipping coffees to Aden to be reshipped as Mocha is prohibited by the authorities. The United States bought of this coffee last year 2,688,285 pounds at a cost of \$377,352.

On the thirty-seven acres of ground devoted to the live stock department at the world's fair at St. Louis are being built 2,300 stalls. Two thousand four hundred of these are open stalls, 5 by 10 feet. The remaining 400 are box stalls, 10 by 10 feet. In addition four octagonal dairy barns will provide 140 open stalls and twenty-six box stalls.
Ether and chloroform, so useful in sending men to sleep, have the very opposite effect on plants, which are stimulated to the greatest possible activity by these drugs. In Denmark and Germany advantage has been taken of this fact to force flowers in rooms and glass houses and to make them bloom out of season. The results are said to be marvelous.

It is proposed to use currents of electricity in place of anesthetics for operations on the teeth. One pole is connected to an electrode molded to fit the tooth and lined with wet asbestos to counteract any heating effect on the tooth itself. Five minutes suffices to render insensible a tooth with a single fang. Molar teeth and those with several fangs require longer.
In some countries walking sticks are manufactured from shark fins. From the skin of the animal is obtained a leather suitable for making sword grips and many fancy articles. Sharks abound on the coast of Nicaragua, and Mr. Gottschalk, the United States consul at San Juan del Norte, suggests that the fins, backbones and skins might with advantage be imported into the United States for industrial purposes.

There are twelve Yale students who because they are more than 6 feet 1 inch tall are eligible to membership in the new club of Broddings of the University of New York. The secretary of the club is Frederick C. Wadsworth, and the president is Frederick C. Wadsworth, and the vice president is Frederick C. Wadsworth. The club is known as the "Broddings Club" and its members are known as "Broddings." The club is known as the "Broddings Club" and its members are known as "Broddings."

The American Accent Preferable.
Mark Twain was talking about the American accent.
"It has changed," he said, "and for the most part it has changed for the better. The nasal 'ow' is gone. But here and there it would be as well if it had remained. The last time I went to church the clergyman read out his text like this:
"He that hath yahn to yab let him yab."

NEW SHORT STORIES

Lipton's Cheese Ad.
"I remember very distinctly," said an old gentleman in the Waldorf-Astoria to a New York Press man, "the first we inhabitants of Glasgow heard of Tom Lipton. And to think, he is now a man of world renown. Tom and I were schoolboys together. Then I went to Eton and lost track of him. I studied law, and when I returned to Glasgow Tom had hung out his shingle as a green grocer in an obscure street. He was competing with well established firms and for three years plodded along almost unnoticed and with only a small number of customers. But one day the Glasgow papers bore an advertisement something like this:
"Thomas Lipton will sell at market price good cheeses filled with coin of the kingdom. The cheeses have been prepared especially and are laden with threepences, sixpences, shillings, half sovereigns and sovereigns."

"This astonishing announcement attracted a lot of attention, and the little shop of Lipton, green grocer, was besieged. He sold his cheese by the pound, and in each slice one was quite sure to find at least a silver coin. What a trade he drew! He sold cheese by the thousands of pounds. It cost him a goodly penny, too, because he gave away in this fashion about £500. But Lipton was established. For years he was known as 'cheese Lipton,' and each Christmas he would conceive some brilliant scheme along lines that appealed to the public."
McKinley's Good Nature.
The late President McKinley's relations with the newspaper correspondents were almost always cordial, and he never seemed half so anxious to keep them aloof as his attendants were. One of his last vacations as president was taken in the Adirondacks. Thibault went a newspaper photographer on the speculation that he might possibly get some snapshots of the chief executive in his hours of ease. For two or three

days the enterprising camera man had hard luck, for the caretaker of the place kept him out of photographing distance from the president. Then by good luck he met McKinley face to face and told him what he wanted.
"Is it of great consequence to you to get these pictures?" queried McKinley. Being assured that it was, he invited the photographer to come along and bring his camera at once. Then both Mr. McKinley and his wife posed as many times as the photographer asked them to, greatly to the latter's delight and profit as a matter of course.

HE INVITED THE PHOTOGRAPHER TO COME ALONG.

Up in New York state lives a pension claimant who has sounded a note of warning to an overcautious government in a letter to Secretary Hitchcock, who has referred it to Commissioner Ware. She says:
"I have furnished the evidence, all that has been called for, and if they want any more Evidence they know the address of all the persons and parties, and they have made Evidence enough to hate a thousand claims loved. If not then it will have to go to the Judge above me, for I can not and won't spend another cent to get more than I have now furnished. This Thing of calling for the same thing over again will have to stop right now. I won't put up with it. I'll go without my pension first."—New York Tribune.

A Joke From the Bench.
Notwithstanding his twenty-two years of service on the bench, Lord Justice Mathew still preserves that elasticity of spirit and love of a joke which has distinguished him all through his career. One of his remarks the other day created great merriment in the court of appeal. A learned king's counsel was arguing the question as to what is an "accident" and was putting instances of what he considered would properly come within that term and what, on the other hand, would not.

"Suppose," said he, "some one were to hit me in the eye and my eye became black in consequence, the fact of it becoming black could not be called an accident." "Perhaps not," said the lord justice, "but you would doubtless explain it on that ground."—Westminster Gazette.

BROWN COUNTY VISITORS.

The excursion from Mt. Sterling Thursday given by the Gentlemen's Driving club brought about 200 people to the city. The train arrived at 9:30 in the morning and left at 7:20 last evening.

The Driving club were instrumental in sending a large delegation to the Brown county fair and the merchants of that city took this opportunity to return the favor. A committee from the Driving club met the train and escorted the delegation over the city and also introduced the visitors to many of the merchants. All the excursionists seemed well pleased with the city and it is to be hoped that a number of such excursions will be arranged in order that merchants of this city and Mt. Sterling may become better acquainted. It is certain that citizens of that city will always be welcome in Jacksonville and their visit yesterday was thoroughly appreciated.

GAVE ANNUAL SUPPER.

The active members of the Young Woman's Foreign Missionary society of Grace church gave their annual supper in honor of the honorary members last evening. The event took place at the home of Miss Ethel Wylder and was thoroughly enjoyed. A delicious supper was served and then some time was spent socially, one feature being the love story written for the occasion by Mrs. H. E. Rusk with blanks in which the names of members were to be filled. The arrangements for the evening were very successfully made by Misses Mary Huntley, Lizzie Groves and Ida Marsh.

HE CURED THE LITTLE GIRL.

Mr. Herman Muller, senior member of the firm of Muller & Leykom, extensive lumber and general merchants at Polar, Langdale Co., Wis., says: "My little girl was troubled with a bronchial cough and we tried several remedies without satisfactory results. We finally gave her a few doses of Hart's Honey and Horehound, which quickly cured her." Hart's Honey and Horehound is a never failing cure for all throat and lung troubles to which children are subject. It is very pleasant to take and the absence of any deleterious or dangerous drugs makes it especially valuable for small children. 25c, 50c and \$1 bottles. Sold by Lee P. Allcott, druggist.

AN EDITOR'S OPINION.

Our readers will be interested in the statement by Mr. John Edmonds, editor of the Daily and Weekly Courier at Lincoln, Ill. He says: "I have long been a sufferer from constitutional constipation and have used Re-Go Tonic Laxative Syrup. I found it an agreeable medicine and just the thing for men engaged in sedentary pursuits. I take pleasure in recommending Re-Go Tonic Laxative Syrup as safe and effective, without any gripping or nauseating effects common to similar remedies." 25c, 50c and \$1 bottles sold by Lee P. Allcott, druggist.

THE DEATH RECORD.

KEMPER.

Mrs. Theresa M. Kemper died at Our Saviour's hospital Sept. 24, 1903, at 5:15 a. m. The deceased was born in Germany in 1830 and with her late husband immigrated to America in 1860. Mrs. Kemper leaves five children, two sons, who live in St. Louis, and three daughters, Mrs. Thad Eastman and Miss Kemper, Jacksonville, and Mary Kemper, of Waverly. The deceased lived most of her life in Waverly, except the last six weeks, which were spent with Mrs. Eastman. She was a devout and practical member of the Catholic church and felt perfectly reconciled to depart this life. She was conscious unto the very last and expressed her desire for heaven to take her. She was liked by a host of friends for her kind and gentle disposition, and it was especially noticed in her last illness—her uncomplaining spirit.

The remains were taken to Waverly Thursday afternoon, where interment will be made Saturday.

METCALF.

Elias Metcalf, living north of the city, received word late Thursday afternoon of the death of his son, John, in Chicago at 3 o'clock Thursday afternoon.

AT THE GRAND

Thrilling Melodrama Presented
Last Evening Before a
Good House.

"A Thoroughbred Tramp" appeared at the Grand last evening before a fair audience and proved an excellent entertainer. The tragedy and comedy features were about equally divided and gave very evident satisfaction. Ferdinand B. Ashley as the tramp was the favorite in both the comic and tragic roles and Grace Childers as Nellie Hathaway, Wilbur Martin as Otto Hackmeyer and Jack Hawkins as Judge Galpin were also warmly received. In the heavier roles Blanchard Brand, Bruce Rinaldo and Harry S. Sheldon appeared to good advantage. The minor parts were well sustained. The specialties introduced in the first three acts by Ashley, Martin and Grace Childers were well done and merited the hearty applause accorded them. The troupe is a well balanced company and their care of detail work gave evidence of their capability.

BAPTIST MEN'S LEAGUE.

The Men's league of the First Baptist church held their first regular meeting since the summer's vacation in the church parlor Thursday evening. The Young Ladies' Aid society served supper at 6 o'clock and there were forty members of the league who sat down to a very bountiful menu and their wants were well looked after by the efficient waitresses. A short business session was held after the supper hour, after which an adjournment was taken to the church auditorium where J. B. Williamson made a short talk on the Siege of Vicksburg, and during his address a number of stereopticon views brought out the essential points in his talk and added considerable to the interest of the subject at hand. Mr. Williamson was an eye witness of the maneuvers at Vicksburg and his descriptions are made most realistic because of his familiarity with the surroundings and having also made a thorough study of the battle since the close of the war he is able to make plain and easily understood every movement in this, one of the greatest battles of the civil war.

After this address a number of stereopticon pictures were shown and the program ended with the song, "Marching Through Georgia," led by Mrs. J. P. Brown, and illustrated with stereopticon slides.

DOCTORS COULD NOT HELP HER.

"I had kidney trouble for years," helton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." J. A. Obermeyer, City drug store.

Foley's Honey and Tar is peculiarly adapted for chronic throat troubles and will positively cure bronchitis, hoarseness and all bronchial diseases. Refuse substitutes. J. A. Obermeyer, City drug store.

NOTICE!

Miss Carrie Babenhause is now owner and proprietor of the Crescent hotel, having purchased the interest of A. C. Babenhause, who will hereafter personally conduct the Star lunch room on the north side of the square.

FEET SWOLLEN TO IMMENSE SIZE.

"I had kidney trouble so bad that I could not work," says J. J. Cox, of Valley View, Ky. "My feet were swollen to immense size and I was confined to my bed and physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure, which made a well man of me." A. J. Obermeyer, City drug store.

THE MATRIMONIAL RECORD.

HIS LIFE SAVED BY CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

"B. L. Byer, a well known cooper of this town, says he believes Chamberlain's Colic, Cholera and Diarrhoea Remedy saved his life last summer. He had been sick for a month with what the doctors call bilious dysentery and could get nothing to do him any good until he tried this remedy. It gave him immediate relief," says B. T. Little, merchant, Hancock, Md. For sale by all druggists.

THE WABASH-PENN FIGHT.

Pittsburg, Pa., Sept. 24.—It was reported among the railroad officials to-day that President Cassatt, of the Pennsylvania Railroad company, is expected here to-morrow to take a hand in disarranging the plans of the Wabash to secure the right of way for elevated tracks along Duquesne way. The Pennsylvania does not want the Wabash to enter Allegheny. Having the right of way along Duquesne way exclusively, the Pennsylvania has figured that the Wabash would be shut out of Allegheny by a direct route. The Pennsylvania suggested that the Wabash could raise tracks 25 feet above the proposed Pennsylvania tracks. This would land the Wabash in the air 100 feet above the Allegheny river. The fight is expected to be bitter between the rival systems.

Mrs. L. M. Caldwell and Mrs. J. E. Fairbank will arrive to-night from Macatawa, Mich., where they have spent the summer months. Miss Elsa Green will accompany them for an extended visit here.

Daily Journal 10 cents a week.

FOOT BALL PRACTICE

Some Snappy Work on the Illinois College Field.

Twenty-two men appeared in suits for foot ball practice at Illinois college yesterday afternoon. After preliminary practice in passing and falling on the ball the squad divided into two sections and spent half an hour in practicing signals and the simpler formations. The afternoon's work closed with half an hour of stiff scrimmaging between the sections.

Eilers, tackle on last year's team, appeared for the first time and showed up in his usual good form. MacDonald returned from California on Wednesday night and is looked upon as promising material for the varsity. Owen, quarterback on Mariah Simms in '01, came out and ran one of the squads. He will register to-day. Among the new men Dinsmore, of the academy, McKinney and Stickel, of the freshman, and Conover, of the sophomore class, showed up well. Tontz, of the sophomore class, also came out for the first time and showed up well at half. Others are expected to come out to-day and it seems that within a week at least thirty men will report daily for practice.

After supper the members of the team met in the physics laboratory and were drilled upon signals for half an hour by Coaches Calhoun and Willis. Brockhouse, of the senior class, was elected captain for this year.

Manager Wylder expects to take at least twenty players to Winchester Saturday and if possible he will take every man who appears for practice to day. Principal Stoops, of Whipple, will be out to coach the squad to day and put on the finishing touches for the Winchester game.

PROGRESS MADE

More Right of Way Secured on Jacksonville-Concord Railroad—Articles of Incorporation Filed.

W. E. Crane, general manager of the J. & St. L., yesterday filed with the county recorder articles of incorporation of the Jacksonville & Concord railroad. The capital stock named is \$300,000, the shares being valued at \$100 each. The incorporators are all Burlington people and are as follows: Charles W. Carpenter and Lars B. Larsen, of Chicago; Joseph A. Cornell, John M. Deering and William H. Henson, of LaGrange.

Work on the right of way is progressing satisfactorily and with more speed than anticipated. Mr. Patterson, special agent of the C., B. & Q. railroad, and Mr. L. S. Doane, of this city, are actively engaged in the work. At least five miles of the right of way have already been signed for, the tendency of the land owners being to settle with the officials of the railroad rather than go into court.

The main properties traversed by the right of way, commencing at Oak street in this city, are as follows: H. A. Hempel, John Theobald, A. J. Struter, Stansfield Baldwin, Joseph Warcup, J. W. Graham, J. G. Johnson, Parker Doan, Antonio Baptist, F. M. Murgatroyd, Abram Reid, A. A. Shoemaker, Mrs. Mary Ornellas' estate, Joseph Smith, Manuel DeFreitas, Charles James, Charles Clappit, William Patterson, S. N. Bridgeman, Grove estate, Ralph Reynolds, Allen F. Ayers, Robert Caldwell, G. W. Hoover, Richard Stanley, L. F. Joy, C. B. Joy, L. P. Cowdin, Mrs. E. B. Woodward, Samuel Newton, Fairbank estate, M. O. Mathews and John Behmer.

THE BOWERY.

New York, Sept. 24.—One thousand strong the Salvation Army is going to move upon the Bowery and cleanse that thoroughfare of the jettison and flotsam of humanity that nightly seeks its concert halls, museums and other attractions. At the head of this will be Commander Booth-Tucker, with Consul Emma Booth-Tucker second in command. The campaign, which will last nine days, will be inaugurated next Saturday. It will be such a campaign as never has been witnessed on the Bowery. There will be a procession of the Army's host from one end of the Bowery to the other during the afternoon of Oct. 4. At the head of this procession twelve of the strongest soldiers of the Army will bear upon their shoulders a coffin. In the coffin will be a living man. When the Bowery has been traversed from end to end the coffin will be carried to Miner's Bowery theatre and there all the ceremonies attending a regular funeral will be observed.

Then Commander Booth-Tucker will preach his most powerful sermon of the week, his subject being "Buried Alive." In this sermon he will show in a graphic manner the number of persons—men and women and children, too, for that matter—who daily are allowing themselves to be "buried alive" on the Bowery.

Washington, Sept. 24.—Announcement has been made of the biennial session of the Universalist general convention, to be held in Washington, Oct. 27 to 31.

HOUSEHOLD CARES

Tax the Women of Jacksonville the Same as Elsewhere

Hard to attend to household duties With a constantly aching back. A woman should not have a bad back. And she wouldn't if the kidneys were well. Doan's Kidney Pills make well kidneys. Here is a Jacksonville woman who endorses this claim:
"Mrs. M. Griffin, of 1125 South East street, writes: 'For two or three years I have been subject to heavy aching pains through my loins and kidneys, frequent headaches and spells of dizziness. I could not rest comfortably and in the morning when first getting up, I felt really worse than when I went to bed. The kidney secretions were irregular and deposited a heavy brick dust sediment. I was advised to get Doan's Kidney Pills at Dr. H. Lee Hatch's drug store and did so. I used them for a short time and I was thoroughly relieved.'
For sale by all druggists. Price 50 cents a box. Foster-McBride Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

READ THIS.
Jacksonville, Ill., Sept. 25, 1902.—Nearly three years ago, with a second attack of serious illness, I was surprised to learn that I had diabetes. Providentially I was led to procure a bottle of Dr. E. W. Hall's Specific for Kidney and Bladder Troubles, known as A TEXAS WONDER. Less than half of the bottle effected complete and permanent cure. Consequently I believe it to be a medicine of very great value.

ROBUR MEN MEET

Banquet Held in Dunlap House
Ordinary Thursday Evening.

The annual fall banquet of Robur Fraternity, an organization of the Illinois college alumni, was held in the ordinary at the Dunlap house Thursday evening at 8:30 o'clock.

The organization is twelve years old and now numbers fifty-seven members. Hon. A. Clay Williams, state's attorney of Pike county, of the class of '91, and one of the founders of the organization, was present and acted as toastmaster. Matters of interest to the college and to the fraternity were discussed and the following was the program of toasts, which were responded to after an elaborate menu had been elegantly served: H. J. Dunbaugh, '99, "Robur in the East"; A. F. Ayers, '00, "The Robur Spirit"; W. G. Goebel, '03, "Robur of the Future"; G. C. Lenington, '92, "Always Present in Spirit"; C. F. Wemple, '94, "The Growth of Robur"; W. W. Moore, '98, "The Germination of the Acorn."

The banquet was one of the most successful held by the society and letters and telegrams were read from absent members.

The banquet committee was composed of H. H. Bancroft, '96; A. D. Fairbank, '00, and W. G. Goebel, '03.

RIVER SEWAGE.

Chicago, Ill., Sept. 24.—St. Louis' standing in court in the supreme court injunction case of the state of Missouri against Illinois and the sanitary district of Chicago, testimony in which is now being taken in Chicago by United States Commissioner Bright, will be attacked by Attorney James Todd, of the sanitary board, on the ground that St. Louis herself turns her sewage into the Mississippi river and contaminates the water of the cities below.

When the testimony is all in and the arguments are made it is expected that the experts will try to show that the water of the river below St. Louis is contaminated by sewage from that city. "In this case St. Louis has not clean hands," said Mr. Todd. "The sewage of St. Louis and other Missouri towns is turned into the Mississippi river and its tributaries and this is doing exactly what it asserts Chicago and Illinois are culpable in doing. There won't be a spot of St. Louis that is not attacked when we finish the case."

Prof. John H. Long, of Northwestern University, occupied the stand during the entire morning session yesterday. The entire subject of making analysis was gone into without touching the results of the examinations themselves and the conclusions to be drawn from them.

BIG CLOVER CROP.

Pittsfield Democrat: This has been a great year for clover in the county and we hear of some phenomenal yields in seed. The largest yield thus far reported is that of thirty acres belonging to Dick Long, of ummer Hill, which averaged 4½ bushels to the acre. The market price for clover seed is at present \$4.50 per bushel and this as will be seen would make the land bring \$20.25 per acre, which seems to be a pretty good investment. The machine that did the threshing in this case, it is claimed, turned out 45 bushels in five hours, which is said to be something out of the ordinary.

GUN CLUB SHOOT.

Indianapolis, Sept. 24.—In the second event of the Indianapolis Gun club's tournament to-day the world's record was broken for the large number of entries in a small bird contest. There were fifty-six. At the close of the last event W. R. Crosby was high gun with 23 out of 25; Max Stillwell and Harvey Moore second, 22.

RACE MATINEE

(CONTINUED FROM THIRD PAGE.)

(Jericho), drew the pole. Hal Askew, (H. Sibert); Wilkes Roe, (Vosseller); Gold Seeker, (Benson). They were given the hand on the third time down, well bunched. It was a horse race all the way when Lady J. and Gold Seeker, and although the latter started on the outside he came fast all the way and was overhauling Lady J. at the turn when she went into the air and it was all day with her. Vosseller, with Wilkes Roe, made a good drive after a break at the first turn and passed Gold Seeker, taking second place. Red Chief went well until the back stretch, when she became unsteady and broke badly. He finished fourth, and the time was 1:10¼.

It required only three times down to get the horses away in the second heat of the special trot and pace and when the word was given they were going nicely. Goldseeker and Lady J. were going neck and neck until the third turn was reached, when Lady J. made a bad break, and Vosseller, with Wilkes Roe, who came strong after a slight break at the first turn was compelled to pull up to avoid a collision. Lady J. was up again on the turn and Wilkes-Roe passed her and came after Goldseeker, who was too much in the lead, however, to be in any danger. Hal Askew finished last and the others as above. The time was 1:12.

The third of the special race was won by Goldseeker, although he had to come all the way, as Wilkes Roe, under the splendid handling of Vosseller, was right after him for the honor, and although he made one break and a skip, Vosseller settled him and never lost his position in second place. Lady J. had the inside position in this heat, but was in the race until the third turn, when Hal Askew and the Lady, who were neck and neck, both made mistakes and were out of it. Lady J. finished third. Time 1:11¼. First money to Gold Seeker, second money to Lady J.

SPECIAL TROT AND PACE.

Summary—2 in 3:
Gold Seeker 2 1 1
Lady J. 1 4 3
Wilkes Roe 3 2 2
Hal Askew 4 3 4
Time—1:10¼; 1:12.

There were seven entered in the fourth race, the 2:30 trot, and all started. Cora J. (Frank Lohman) drew the pole, Grace Wilson (J. O. Vosseller) second, Mr. Gus (H. O. Massey) third, Gin (J. Rutherford) fourth, Little Irene (C. F. Corrington) fifth, Coultas Girl (F. Huffaker) sixth, Result (Gates trawn) seventh. They were given the word on the sixth time down with an uneven start, Gin breaking as they went under the wire Grace Wilson followed Cora J., who was in the lead when the grey mare left her feet and Gin and Mr. Gus went by. Gin went after Cora in fine style down the stretch, but Mr. Gus came lively and the big black fellow went up on the third turn and Mr. Gus went into second place and came fast into the home stretch when he broke and Cora J. came home a winner by several lengths. Grace Wilson was fourth, Result fifth, Coultas Girl sixth and Little Irene seventh. Time, 1:17.

They were sometime getting off in the second heat of the 2:30 trot and Cora J., the first heat winner, went up at the first turn and Mr. Gus went into level with Grace Wilson following, although the grey mare broke some on the second turn, but caught well and was after Mr. Gus all the way. Cora J. made another break on the back stretch, but came to again in fine style and finished in third place under a hard drive. Result finished in fourth place, Little Irene was fifth, Gin sixth and Coultas Girl seventh. The heat was trotted in the fast time of 1:18¾.

They went away after the third time down on the third heat of the 2:30 trot with Grace Wilson taking the pole at the first turn. She went steady to the second turn when she broke and Cora J. took the lead. Grace Wilson soon caught them. Mr.

Gus broke before the first turn, but came fast down the back stretch. The others were far behind. As they rounded the third turn Mr. Gus was in third place when both Grace Wilson and the former broke. Both were at it handily again, however, and raced down the stretch for position, Grace going under the wire second, Mr. Gus third, Result fourth, Gin fifth, Coultas Girl sixth, Little Irene seventh. Time, 1:13¾. First money to Cora J., second money to Mr. Gus.

Summary—2 in 3:
Cora J. 1 3 1

HALF MILE RUNNING.
It was nearly 6 o'clock when the runners were brought out and they were a contrary lot. After being called back twice they were finally given the word with Nellie M. (J. G. Cox) at the pole, Trolley (Harlow) second place and Hidden Mystery (Green) on the outside. The argument was all between Nellie M. and Hidden Mystery, as Hunter on Trolley got a bad start, several lengths behind the leaders. The leaders ran well down the back stretch neck and neck, but Hidden Mystery came home the winner in easy fashion. The time was 1:57½. First money to Hidden Mystery, second money to Nellie M.

BURGLAR CAUGHT

Stole Goods from Holkenbrink's
Shop Wednesday night—
Culprit Now in Jail.

About 9 o'clock Wednesday night burglars entered the bicycle shop of Benjamin Holkenbrink on West Morgan street and when Holkenbrink came down to open up Thursday morning he found his side door open and going in found that some one had been in his shop the previous night and two 38-calibre revolvers were missing. The police were notified and followed up the various clues during the day. Suspicion pointed very strongly toward Clifford Adams, who had been around the shop many times. Captain Kennedy located him at the opera house about 9 o'clock last evening and arrested him in the gallery during the play of the "Thoroughbred Tump." Adams had nothing to say and while going out of the building Captain Kennedy relieved him of a revolver, which was identified by Holkenbrink as one of his weapons. He was taken to the city prison, and when confronted with the fact that the weapon which he had upon him belonged to Holkenbrink, he confessed to having robbed the bicycle shop, but baring this admission was very reticent and would not talk. The other weapon was found at Adams' home on South Church street. This is not the first offense by this young man, who is about 17 years of age, but a number of times he has gotten into serious difficulties, but has managed to get out of them. This offense will possibly ensnare him in the meshes of the law and there will have to be a reckoning on the part of the youth in making answer to such a serious charge.

ELOPEMENT.

Vincennes, Ind., Sept. 24.—Charles Buck, aged 22, and Carrie Chambers, aged 17, playmates from childhood and living on adjoining farms in Vigo township, secured a license to marry Saturday. Miss Chambers' father heard of it and forbade their marriage. They secured a horse and buggy and drove to various towns. After a trip of 100 miles they reached Edwardsport, where they roused 'Squire Ruble, and he united them in marriage. Parental forgiveness has been granted, but Chambers says he will prosecute the man who swore to his daughter's age when the license was granted.

CRAZY ACTOR.
Cincinnati, Sept. 24.—Joseph Monger, manager of theatrical company, invited several actors to his room for the ostensible purpose of making a settlement. As soon as they were seated Monger drew two revolvers and fired ten shots before being overpowered. Bert Haverly and wife and Comedian Longfellow were slightly wounded. It is thought Monger is demented.

MURDER AND SUICIDE.
Chicago, Sept. 24.—The coroner's jury in the case of Harriet Elizabeth Weber and Innocent Tallmunt, found dead yesterday, returned a verdict the woman was killed by Tallmunt, who then committed suicide.

"Clothes Don't Make the Man"

WELL, perhaps not altogether, but they frequently go a long way towards it. Haven't you noticed how much better you have felt when well dressed, when you had on a good looking, well fitting suit; how much better able to face the world as a man; in other words, how much more manly you felt?

It is always so; you can approach a man on business with far more assurance, and you will make a stronger impression on him when you are correctly dressed. Many a man has begun his upward career in business with a smart suit of clothes, and if you buy the right kind, they don't really cost so much.
